01. PRESENTATION

My name is Clément, and I have been a filmmaker for the past six years. Based on the French Riviera, I work with couples both in France and abroad to capture and preserve their wedding day.

Through images, sound, and key moments, I create authentic films that tell the story of your day in the most meaningful way. My work pays special attention to the couple, the venue, the light, and the atmosphere, in order to faithfully convey the unique ambiance of your event.

Throughout the day, I adapt to the natural rhythm of the wedding, capturing spontaneous moments as well as the highlights, and stepping in when necessary to serve the story of the film.

Each film is crafted with care and precision, with thoughtful editing, balanced pacing, and a cinematic aesthetic.

The goal is to create an elegant and timeless film that will preserve the memory of one of the most important days of your life

02. YOUR EXPERIENCE

- » A first meeting, over coffee or by phone, allows us to get to know each other and define the approach to your film so it fully reflects your story.
- » Up until the wedding day, we stay in touch regularly to prepare the day, understand your expectations, and anticipate the key moments.
- » On the wedding day, I adopt a discreet and immersive approach to capture emotions, glances, and genuine moments without disrupting the flow of your celebration, from the preparations through to the evening.
- » After careful editing and color grading, your film is delivered in a digital format, preserving a faithful and timeless memory of your day.
